

## Infopathy Technology – water healing.

Imprinting water with frequencies  
for optimising health and  
biological systems (ANNEX 36)

# Infopathy – Health in a glass of water

## WHAT IS INFOPATHY TECHNOLOGY?

- It is a technology that transfers information directly to cells through water or frequencies.
- It's about the medicine of frequencies or of the future.
- This system is incredible. It is the result of decades of efforts with the help of the renowned Nobel Prize-winning scientist: Luc Mongtanier. More details in the great article I wrote for you: [Infopathy – the magic in the water and the amazing future of wave medicine in 2021](#)
- **Basically, instead of taking pills or supplements/food/oils, you imprint their information through frequencies with the help of Infopathy technology directly to the body or through water. The electromagnetic waves or the information transferred in the water that you drink, reaches the cells in another way.** The effect is equivalent or even stronger. It's not science fiction, it's already a reality. I'm not kidding.
- It's a great help, especially for those who have trouble swallowing a lot of supplements.
- Of course, it's also cheaper. You'll understand very quickly once you read about these technologies.

## HOW TO USE?:

### STEP 1:

Everything happens on their website. All you need is internet access and a browser. The WEBSITE is HERE: [www.infopathy.com](http://www.infopathy.com). You have the access link for discount, subscription, access to technology. Everything you need.

**BRALGEI10 or discount link:** <https://www.infopathy.com/?invite=14986467>

You will need one of their devices. Order from the [Infopathy website](#) the equipment that informs the water:

**IC GLOW, ICpad or IC Hammer.** Personally I prefer the first 2. IC Glow now in the new version also works via Bluetooth, not just wired and also has an infrared setting.

### STEP 2:

Register on the [Infopathy \(Membership\)](#) website because you need access to the programs.

You need a subscription of 10 dollars per month (like Netflix). A tiny price for our health and integrity. More people can use the subscription.

### STEP 3.

- You can access thousands of programs already existing on the site. Learn from the multiple tutorials available on the site.
- **And you will have access to the programs made by me that I have designed, checked and updated for years. (The ones with the extension \_bralgei)**
- SETTING PROGRAMS. Once you have these 2 tools, access the links for the special programs below to have the programs in your personal menu on the website. The section is called: CREATE (you can find it in the menu/dashboard)
- THE LIST OF PROGRAMS IS AT THE END of this file WITH DIRECT LINKS.
- Click on the hyperlinks from me and then when the window opens you copy & **modify** then **Submit** to save.
- Once you've done that, it's available in your main menu to created programs. From there you can access it to schedule the water.

### Step 4: USING technology to inform/schedule APA

#### Water preparation:

- You can use still or mineral water. I prefer mineral water because it has more electrolytes and this helps structure the water. If you use still water, it is preferable to add a pinch of salt, also for electrolytes. Note that there is also a second method with more salt. You can find it on the website and it has all the explanations.
- **The most important thing is to shake the water in the bottle very well to create nano-bubbles. Around these bubbles, the molecular structure of the water is created that retains the information from the programs transmitted through devices and programs.**
- **Shake the water 21-36 times before structuring it**
- Pour the water into a glass container (CLEAR GLASS ONLY) and then start the program
- The water is preferable to be cold (4-10 degrees) but it also goes at room temperature. The water, however, retains its optimal characteristics at these lower temperatures.
- Stir the water a little before and then leave it alone. On the Romanian side, stir the water from the container for a few seconds.

#### Transfer of programs to water:

- Enter the Infopathy website and choose the desired program directly from the programs section or from the manually created programs section (Created).
- Choose the device you will use. You have 3 options.
- Choose to insert the programs simultaneously to the water or to the body (see that here you also have the option of transfer optimization)
- **ATTENTION HERE: Choose to implement the program many times or infinitely** because to maximize the effect you can leave several hours to structure the water
- You can choose according to the manufacturers' instructions to leave the programs for 12-15 minutes. I have noticed that the maximum is obtained when you leave the water to structure between 2.5-3 hours.
- It took me a long time to figure out this secret.
- Then click on **START TRANSFER** and check that the volume is at maximum (everything is transferred through sound).

- Some devices close when the screen closes. To prevent this there is the following trick: **Start the program (START TRANSFER) then press STOP. Then start the program again (START TRANSFER).** This way it doesn't close anymore.
- On laptops, another browser page opens and you can rest assured that it works, you can even close the internet connection (Airplane Mode)

### Use of water and its storage:

- I use 100-150 ml of structured water 2 times a day. That's enough.
- You can do fire or dog breathing if you want to maximize the effect. It's a big advantage. I'm not kidding. 5-15 minutes or more (each as much as he can)
- Basically between the 2 tranches of water you breathe. I do this in the morning.
- I drink a glass then breathe then another glass.
- Water storage is done in dark containers to which light does not have access and/or the refrigerator.
- Light dislodges negative hydrogen ions.
- Keep the water in the dark or covered/thermos by glass or stainless steel and drink it little by little if you prepare 2 liters at a time or each as much as it does.

## WHAT ARE THE PROGRAMS THAT WILL BE USED?

There are simple programs available directly on the website. There are thousands.

Then there are the superprograms created by me or others like me who have struggled to give meaning and maximum efficiency to these frequencies and technologies.

The composition of these special programs that we have composed with a lot of effort, science and preparation required years of preparation and experience. Be careful who you offer them next if you intend to do so, it needs to be worth it.

Other programs may be available if you don't know how to do it. It's not hard to get caught up because there are many extremely varied programs.

### Master Programs:

Other advanced programs are available as needed and will be sent privately
